Heidi needs a hand this Christmas—can you help?

Heidi (pictured with Christmas tree) was one of a group of donkeys from owners who could no longer care for their animals. As these people aged they found it impossible to continue to care for their companions as they wished to (and the way the donkeys deserved).

However, by refusing to sell them separately and break up their donkey family meant their only option was to surrender them to the GSDD. A heart-breaking decision but the right one.

Whilst these donkeys have been very happy with us for over 8 years (thanks to the kindness of sponsors) Heidi, in particular, needs some extra aid in her upkeep. Please read the Sponsorship form for Heidi in Serenade Extra.

Heidi approves of our Christmas tree. From the set of 4 Christmas Donkey Cards, order yours from our Catalogue Order Form.

The other three Christmas Donkey Cards—see Catalogue Order Form.

Knitted Donkeys, smaller but just as friendly

Our popular knitted donkeys are back and are ready for adoption this year. The ladies at 'The Grange at Tea Gardens' have skillfully knitted them and each is unique.

Each is named after a real-life donkey at GSDD and comes with a name tag and registration papers. These papers can be registered in your name or that of someone else as a gift.

A donation of \$100 gets you one of these friendly little fellows, with all funds going to the upkeep of their real counterparts in the Sanctuary (see Catalogue Order Form).
